

City Crews Are Busy Clearing Roads With More Snow Expected

Date: Sunday, December 14, 2008

For Immediate Release

VICTORIA, BC - Victoria's Public Works crews are out in full force plowing, salting and sanding city streets.

Police and Fire vehicles are outfitted with chains and street crews are focusing road clearing on emergency routes first, followed by main arterial routes and then side streets.

Residents are asked to stay home unless it is an emergency. Roads need to be clear for emergency vehicles and for those who need to get to front line jobs like fire, police and hospital workers.

Residents are reminded they are responsible for clearing the sidewalks in front of their homes and are encouraged to help those neighbours who are disabled or elderly.

The Crystal Pool and Fitness Centre will not open this morning due to a shortage of staff able to travel in.
