Items Mayor will follow up on:

1. To help the public understand heritage applications more easily, ask planning staff to make a list of 7-10 heritage principles and explain how they are interrelated.
2. Re: Mount St. Angela - how much grant money went into the portion of the building that is proposed to be demolished?
3. Ask Engineering to do a review of timing of traffic signals at Johnson/Wharf/Pandora - intersections leading onto the bridge
4. On Wharf Street at Yates put a "do not block intersection" sign so people can turn - especially left - onto Wharf from Yates even while there is a line up of people waiting to cross the bridge.
5. Someone going 40km/h on Douglas Street from 6pm-6am (needs to drive for work at night) hits every red light. What speed are the lights timed for on Douglas Street during these hours?
6. Re: new Pandora bike lane. Are we (or through ICBC) collecting before and after data re: collisions between cars and pedestrians, bikes and pedestrians, cars and bikes? When will we be able to share this data?
7. What is the plan re: yard waste drop off at the Public Works Yard. The lines are long on Saturdays? How does this fit into the solid waste management plan under development?

Thanks for participating in your community!
