Tsunami Advisory Now In Effect for Greater Victoria

VICTORIA, BC — A tsunami advisory has now been issued to include Victoria. This means Victoria could experience stronger ocean currents and as a result people should avoid entering the ocean and move away from the water’s edge if on beaches or docks.

There is no expected impact to buildings. Therefore there is no need to evacuate any buildings.

For the latest information on the earthquake and tsunami information please monitor the Province of BC's website: www.emergencyinfobc.gov.bc.ca
