

# SCHEDULE K - CISTERN REGULATIONS

## 1. Site Coverage

### Site coverage

All buildings and structures together with a cistern that is located at or above grade must not exceed the maximum site coverage permitted in the applicable zone

## 2. Setbacks

### Setback

A cistern that is located at or above grade must comply with the setback regulations that apply to the main building within the applicable zone

## 3. Parking

A lot or parcel on which a cistern is located must comply with the applicable requirements of Schedule "C" and any other provision of this Bylaw that regulates parking within the applicable zone
