

MEET THE FLEET

Your favourite City fleet vehicles now as trading cards!

Every day, this heavy-hitter hauls dirt, sand and gravel across the City. Come winter, it doubles as plow and tackles snow from all angles with a front scraper, a multi-angle belly plow and salter — clearing streets with ease. This rookie makes regular appearances for Underground Utilities, Waterworks and Roads.

DID YOU KNOW? 💡

With a gross vehicle weight rating of 41,730 kg, this dump can carry some serious weight — approximately 20 tonnes of gravel or the equivalent of four adult male African elephants.

MAKE	Freightliner 114SD
TEAM	All-Star
YEARS PRO	Rookie
WEIGHT	29,937 kg

AKA the smooth operator — it's a key player in paving city streets. With enhanced control near curbs and obstacles, this big roller provides more road coverage and compaction for a durable, smooth finish.

DID YOU KNOW? 💡

Asphalt is sticky. This Drummer is specially equipped with rubber tires to prevent buildup. It's also sprayed with an environmentally safe, non-stick solution before it hits the streets to keep it (somewhat) clean.

WEIGHT	2,722 kg

Brought in for the big stuff, this high-performing heavyweight carries what others can't. It has a load capacity of 5,000 kg and maximum fork height of 2.9 metres, meaning it can lift, move and store heavy materials with ease.

DID YOU KNOW? 💡

One year on the job, this e-lift is barely breaking a sweat — or needing a charge. Maximum lift. Maximum efficiency. Win-win.

WEIGHT	7,805 kg

This electric fast-response vehicle is the latest addition to the City's Fire Department fleet. Kitted out with medical gear, air packs and extinguishers, fire crews can be first on the scene without firing up a full truck. Plus it's electric, which is a slam dunk for sustainability.

DID YOU KNOW? 💡

This medic truck responded to 1,988 incidents in the last year — saving fire trucks for the big jobs and reducing their wear and tear.

TEAM	Fire
YEARS PRO	1
WEIGHT	3,127 kg

This e-fleet rookie is set to become a marquee player on the City's roster. A custom flat deck and power tailgate make equipment loading and transport easy, while a high-voltage power station keeps the tools running on site.

DID YOU KNOW? 💡

The City has invested in five of these custom e-flat decks. Their multi-use potential has no bounds — and no emissions!
