Map 1: Area subject to Zoning Bylaw 2018

3. The Zoning Regulation Bylaw No. 80-159 is inapplicable to the area indicated in orange in Map 1.
4. The area to which this bylaw applies is divided into the zones indicated on the [Zoning Map](#), being the zoning information layer in [VicMap](#).

Part 1 - Administration

- 4.1 In all civil and criminal judicial proceedings a printout of the **Zoning Map**, purporting to be certified as such, shall be prima facie evidence of the location of each zone and of the lands included therein as at and since the date of the certificate, without proof of the signature or approval of the **Director**.
 - 4.2 Whenever any land is removed from one zone into another by a rezoning bylaw the **Director** shall, forthwith after the adoption of the such bylaw, cause the **Zoning Map** to be updated to reflect the changes.
5. The regulations, requirements and definitions in Parts 1 through 6 of this bylaw apply to land in the area to which this bylaw applies in accordance with the zoning designations indicated on the **Zoning Map**, and if Parts 3 through 6 specify regulations and requirements for a particular location within a zone that is identified by civic address, legal description or both, then the specific regulations and requirements take precedence over the general regulations and requirements for the zone.
 - 5.1 Without limiting the scope of section 5, where a property is specifically identified in column A of the "Site Specific Regulations" table in the zone regulations applicable to that property, the specific regulations and requirements set out in column B of that table apply, subject to the conditions or requirements to provide amenities set out in column C, if any.
 - 5.2 Where a property is divided into two or more development areas (DA) as shown in a plan included in the applicable "Site Specific Regulations" table, section 5.1 applies to each development area as if that development area was a separate property.

 - 5.4 In the event of a conflict, the regulations or requirements applicable pursuant to section 5.1 apply despite any other provisions of this bylaw.
 - 5.5 Where a property to which section 5.1 applies is subdivided, section 5.1 applies to all properties that had formerly formed part of that property as if they were individually listed in the table.
 - 5.6 Where a property to which section 5.1 applies is consolidated or otherwise merged with another property, section 5.1 applies only to that part of the new property to which section 5.1 applied before consolidation or merger.
 - 5.7 Where a property is identified in this bylaw by reference to a civic address and a legal description, the legal description shall be deemed to be the correct description in the event of any conflict or inconsistency.
6. For certainty, if the **Zoning Map** indicates that a **Lot** lies within two or more zones, each portion of the **Lot** may be used and built upon only in accordance with the regulations and requirements applicable to that portion under Part 3 or 4.
7. Unless otherwise indicated on the **Zoning Map**:

 - 7.2 Any zone boundary that coincides with a railway right of way is deemed to be located at the centreline of the right of way;
 - 7.3 The surface of all water is within the same zone as the nearest land to it within the **City** boundaries unless zoned otherwise; and

8. For the purposes of this bylaw, an airspace parcel is deemed to be part of the same **Lot** as the parcel at ground level.
9. In the event of any inconsistency between the text of this bylaw and an illustration or diagram that relates to the text, the text takes precedence over the illustration or diagram.
10. The figure indicated in a column of Part 4 of this bylaw adjacent to the heading "**Height – Maximum**" is the maximum **Height** of any **Building** that may be constructed or erected:

12. The figure indicated in a column of Part 4 of this bylaw adjacent to a heading "**Setbacks**" is the minimum horizontal distance between any portion of a **Building** and the specified **Lot Line** of the **Lot** on which the **Building** is located, provided that **Building** features indicated in the relevant table with the heading "Projections into **Setbacks - Maximum**" in Part 4 may project into the minimum **Setback** to the extent indicated in the table, subject to any restrictions in the zone.
13. The figure indicated in a column of Part 4 of this bylaw adjacent to any of the following headings is the minimum requirement of that measure for the **Lot**, subject to any restrictions in the zone: "**Open Lot Space**", "**Street Frontage**", "**Lot Area**", "**Landscape Area**".

22. If any provision or part of this bylaw is declared by any court or tribunal of competent jurisdiction to be illegal or inoperative, in whole or in part, or inoperative in particular circumstances, it shall be severed from the bylaw and the balance of the bylaw, or its application in any circumstances, shall not be affected and shall continue to be in full force and effect.

At least 0.5% of the total Floor Area of the Residential component of the development on the Lot is occupied by Below-market Homeownership Units, or ii. 0.5% of the total Floor Area of the Residential component of the development on the Lot is less than 300 square metres, and the owner provides a cash-in-lieu contribution at a rate of \$107.64 per square meter of Floor Area above the maximum Density of Development prescribed for that Lot in Part 4, subject to section c. <p>c. The dollar amount set out in section b.ii. shall be adjusted annually on January 1 of each year by adding to the dollar amount specified an amount calculated by multiplying the dollar amount as of the previous January 1 by the annual percentage increase in the CPI for the most recently published twelve-month period.</p> | 2.6:1 |

Table 1: Density Conditions

a) *Methodology for determining estimated capital costs and cash-in-lieu contribution for section b.ii.:*

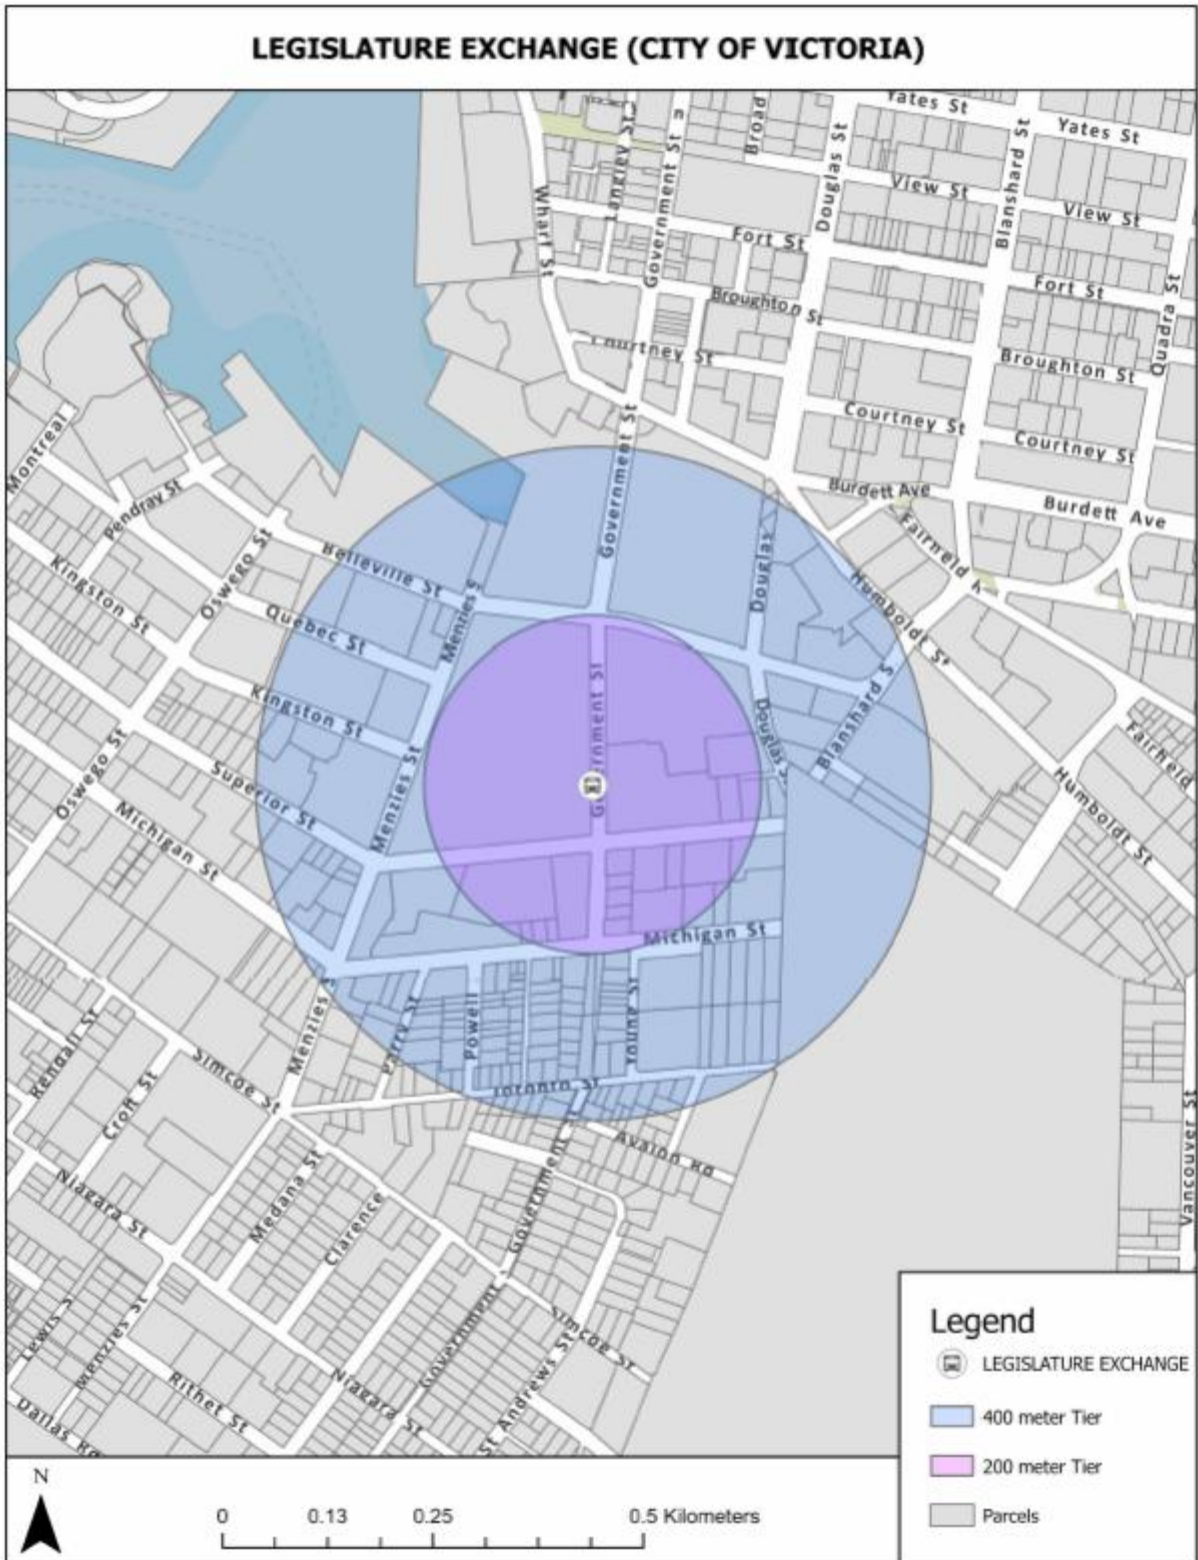

The analysis identified a conservative capital cost commensurate with 75% of estimated land lift for mid-rise wood frame strata housing applications seeking the maximum density levels of the bylaw. Aligning the required level of capital costs to 75% of the land lift associated with the increase in density maintains motivation for applicants to pursue the bonus density. Analysis suggested that the 75% of the land lift equates to the capital costs of providing 0.5% of total floor area as below-market homeownership unit(s) based on the case studies included in the financial analysis. The estimated capital costs associated with the required below-market homeownership unit(s) were then translated into an equivalent cash-in-lieu contribution of \$107.64 per square metre above the base density.

* For greater certainty, cash-in-lieu cannot be provided as an alternative to providing 15% of **Dwelling Units** as three **Bedrooms** .
